Index Chemicus, published every two weeks, primarily contains information on the synthesis, isolation or identification of new chemical compounds. Original journal articles are abstracted "graphically" as well as verbally. This approach enables the individual chemist to quickly recognize pertinent molecular structures. Uses and activities of compounds which are supported by test data are highlighted in the Use Profile feature. Each biweekly issue contains Subject, Author, Molecular Formula and Journal Indexes. Subject indexing is not limited to article titles and is selectively performed by chemists. Cumulations of these indexes are published quarterly and annually. Wherever possible abstracts and indexing are approved by the authors. All indexes are prepared and printed on an IBM 1401-7044 computer complex.

SUBSCRIPTION RATE SCHEDULE

There are two separate rate schedules for Index Chemicus - Educational and Industrial. The Educational schedule applies to hospitals, medical schools, colleges and universities. The Industrial rate applies to industrial firms, governmental agencies, public libraries, research institutes not affiliated with hospitals or medical schools, and research institutes who perform services for industry.

EDUCATIONAL RATE

Cost per yearly subscription . . . \$350.00

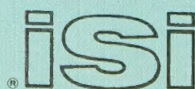

INDUSTRIAL RATE

Cost per yearly subscription . . . \$700.00

Group rates are available upon request.

The Institute for Scientific Information makes a reasonable effort to supply complete and accurate information in its information services, but does not assume any liability for errors or omissions.

Organizations with needs other than those stated may contact the business manager of the

CONVENIENT ONE-PRICE SYSTEM FOR ORIGINAL ARTICLE TEAR SHEETS

Subscribers to all ISI Services--CURRENT CONTENTS, INDEX CHIMICUS, SCIENCE CITATION INDEX and ASCA--can take advantage of our exclusive OATS service for a flat rate of \$2.00 for ANY ARTICLE--UP TO TWENTY PAGES! For articles from 21 - 40 pages, add another \$2.00. This revised rate schedule applies to any article from any of the hundreds of source periodicals -- domestic or foreign -- covered by our information services!

OATS service means prompt, practically fingertip access to one of the nation's most comprehensive collections of periodicals. The articles you receive are torn directly from actual issues. If you've already taken advantage of this unique service you know it's just as the ads say "...within 24 hours the article is on its way -- or you'll know the reason why."

And because of your favorable response to our ISI-OATS stamps, we are using this convenient prepaid system as the standard method of payment for tear sheets. ISI-OATS stamps are available in denominations of \$2.00 and 50¢ (for Air Mail handling, Special Delivery, and Telephone Request service). The stamps may be purchased in multiples of \$10.00. We'll send you our IBM Request Cards without charge. As before, stamps should be affixed to our special cards in amounts to cover the cost of your request. For OATS, write Dept. 04-I.

JOURNAL INDEX

Abstracts 59,749 To 62,687

if you are aware of an article like this:

"Matrix and other Direct Methods for the Solution of Systems of Linear Difference Equations," by W.S. Bickley and J. McNamee, published in 1960, in the Philosophical Transactions of the Royal Society of London

look up its citation like this:

BICKLEY WS-----*60*PHIL T----- 252 69

and you'll find current, related research like this:

OSBORNE MR
COMPUTER J 8 150 65 6R N2 67365
DIRECT METHODS FOR SOLUTION OF FINITE-
DIFFERENCE APPROXIMATIONS TO SEPARABLE PARTIAL
DIFFERENTIAL EQUATIONS

**you have
just finished
a search
in the
SCIENCE
CITATION
INDEX**

You start with a key work in your field. If it has been cited by any current work, it will appear in the *Citation Index section* of the *SCI*. The citing articles that describe the latest research are listed beneath the key work. And their titles and co-authors can be found in the *Source Index section* of the *SCI*.

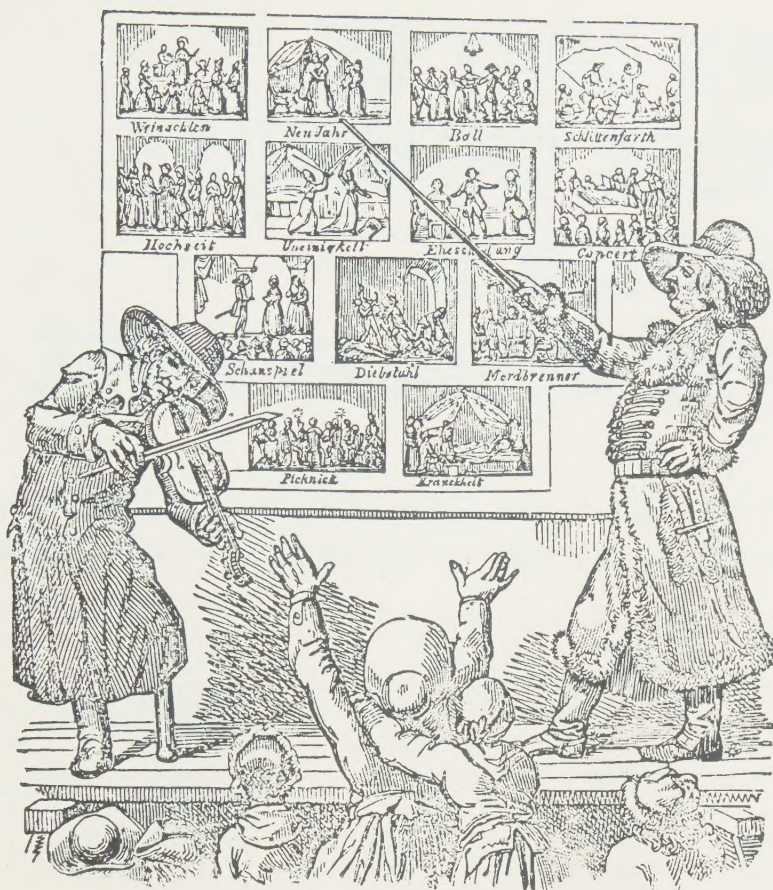

The 1960 Bickley paper was cited in the 1965

SCI third quarterly issue by one current work. To find the full title and citation of this article — by M.R. Osborne — you look in the *Source Index* of the 1965 *third quarterly*. (It appears exactly as shown above, giving all co-authors, journal, volume, page, number of references, journal issue number and ISI accession number, in that order.) Write Dept. 04-I.

INSTITUTE FOR SCIENTIFIC INFORMATION
325 Chestnut Street Philadelphia Pa 19106 USA

WOULDN'T YOU LIKE TO HAVE YOUR OWN COPY OF INDEX CHEMICUS AT A FRACTION OF THE REGULAR PRICE ?

YOU CAN... IF YOUR ORGANIZATION SUBSCRIBES TO THE INDEX CHEMICUS AT THE LIBRARY RATE.
THEN YOU CAN START YOUR OWN PRIVATE, YEARLY SUBSCRIPTION AT THESE SPECIAL LOW PRICES:

That's right. You'll receive your own personal copy of the Index Chemicus as soon as it's published every other week. ☐ Sound good? You no longer have to wait for the Index Chemicus to be routed to you. And the library's copy will always be available for use by students and other faculty members. ☐ The Index Chemicus is a registry of new chemical compounds. In 1966, the Index Chemicus will index a new high of more than 125,000 new chemical compounds and their syntheses... many not indexed by any other abstracting service. ☐ "Graphic" abstracts approved by authors themselves report new chemical information within 30 to 60 days after first mention in the world's literature. Abstracts contain flow charts, structural diagrams, molecular formulas and new "Use Profile" indicating the uses and activities of compounds. Complete bibliographical information provides article titles, authors, affiliations with addresses and original journal references. ☐ In addition to the bi-weekly issues, molecular formula, author, subject and journal indexes are prepared and printed on a large-scale computer complex, appear bi-weekly and are cumulated every three months and annually. ☐ Ask your librarian today if he has renewed his subscription to the Index Chemicus for 1966. Remember your library must be a subscriber for you to receive your private subscription.
